SNR ROULEMENTS becomes NTN-SNR ROULEMENTS

According to the agreement made with Renault in 2006, NTN Corporation had raised its share of SNR ROULEMENTS to 80% in April 2010 with a decision made by the board of directors held in Annecy, France.

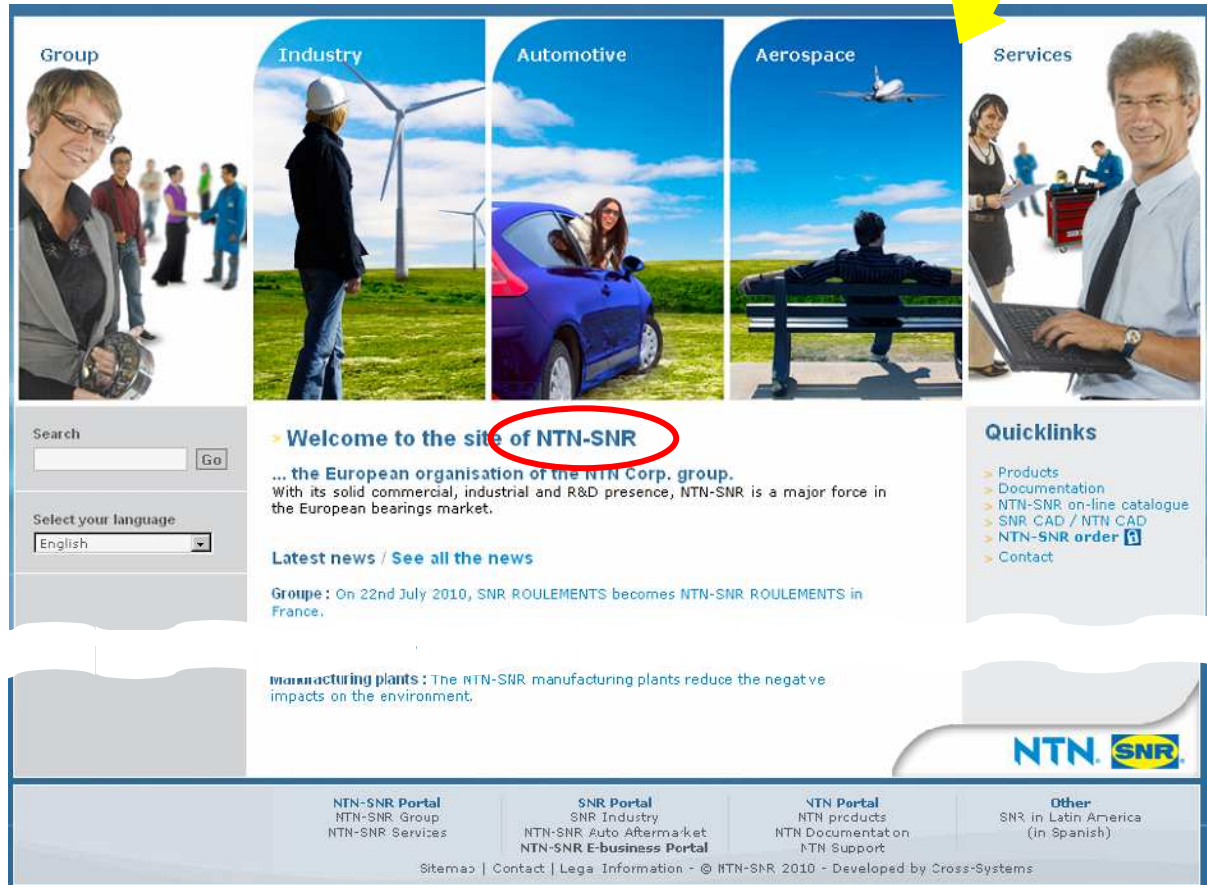

This decision is the result of the positive statement of account provided by NTN Corporation, RENAULT and SNR ROULEMENTS during their first three years of bringing together.

In fact, NTN Corporation and SNR ROULEMENTS succeeded on unifying the sales and technical networks in Europe to support both brands and increase their commercial position in an economic crisis context.

In order to reinforce the network of development, production and sales, SNR ROULEMENTS has decided to change its company name to NTN-SNR ROULEMENTS on July 22 (Thu) with a decision of the general shareholders' meeting.
